To Whom It May Concern:

This letter is to acknowledge that All Star Roof Systems is the exclusive, independent dealer/installer for our *Country Manor Shake* aluminum roofing system in the Houston, TX market. Their company has been specializing in aluminum roofing for many years and we are very confident in their ability to properly promote, sell, and install this roofing system.

Country Manor Shake is a very proven residential roofing system designed to combine the look of wood shakes with the advantages of aluminum. It is particularly known for its Long-Life Durability (Lifetime Limited Warranty), Distinctive Looks, Energy Efficiency, and Fire Safety. Additional benefits include the Low Weight which allows installation over most existing roofs including wood shingles up to ¾" thick. Country Manor Shake is installed over solid decking with a new layer of underlayment material. The Kynar / Hylar coating is quite respected in the industry and specified for its weather resistance by architects and engineers. The product is Energy Star certified and qualifies for a federal tax credit.

Proper installation is crucial to the benefits of metal roofing. When homeowners choose a metal roof installer, it is important to find a company with experienced applicators who know how to install the pre-formed accessories and who have the ability to field-form custom accessories when necessary. We have had great experience working with All Star as an independent Country Manor Shake dealer and we have been very satisfied with their numerous installations. Their company has an obvious commitment to proper installation and customer satisfaction. If you have any questions please feel free to call me at 1-800-543-8938, ext. # 241, seth@isaiahindustries.com.

Sincerely,

Seth Heckaman
Sales Manager
